BILLING CODE 6717-01-P

[Docket No. CP95-158-000, et al.]

Williams Natural Gas Company, et al.; Natural Gas Certificate Filings

January 23, 1995.

Take notice that the following filings have been made with the Commission:

1. Williams Natural Gas Company

[Docket No. CP95-158-000]

Take notice that on January 17, 1995, Williams Natural Gas Company (WNG), Post Office Box 3288, Tulsa, Oklahoma 74101, filed an application pursuant to Section 7(b) of the Natural Gas Act for an order permitting the abandonment by sale of WNG's Humphrey's gathering system located in Hemphill County, Texas to GPM Gas Corporation (GPM), a local producer, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

WNG states that it will convey approximately 15.1 miles of 4-inch, 6-inch, 8-inch, 12-inch and 16-inch gathering lines, associated meter runs, meters and a 660 horsepower compressor station. WNG states that there are currently two gas purchase contracts in the Humphrey's field which WNG has been unable to terminate. WNG asserts that there has been no gas flow on these contracts for some time and the meters associated with both contracts have been blinded. Additionally, WNG claims that it has made numerous telephone calls as well as written contact in its attempt to secure abandonment authorization from the producers. WNG states that it believes that one of the producers is delivering gas to another pipeline company and the other producer has plugged and abandoned the well which is connected to WNG's gathering system. Therefore, WNG asks that the Commission grant the abandonment of the gas purchase contracts and approve the abandonment of the gathering system.

WNG also states that GPM has agreed to continue to provide service to the only right-of-way customer located in the gathering system. Further, WNG states that the service will be provided pursuant to the terms and conditions of a right-of-way agreement between the customer and WNG. WNG requests that the Commission approve the abandonment by assignment of this right-of-way customer.

WNG states that GPM purchases all of the wellhead volumes in the Humphrey's gathering area, and therefore does not believe that a Section 4 filing is required to terminate the gathering service. Additionally, WNG does not believe that a default contract is needed since there are no other shippers involved.

WNG indicates that it will sell the facilities to GPM for a base price of \$412,000—twenty percent of the purchase price, \$82,400, is to be paid within seventy-two hours of execution of the Sales Agreement and the balance of the purchase price, \$329,600, is to be paid at closing—plus an additional amount equal to three percent per annum on the unpaid balance of the purchase price, \$329,600, as measured from the effective date until the closing date.

(Pontchartrain), 1600 Smith Street, Suite 4775, Houston, Texas 77002, filed in Docket No. CP95-159-000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon an exchange service with ANR Pipeline Company (ANR), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Pontchartrain¹ states that it was authorized to exchange natural gas with ANR by order issued May 3, 1968, in Docket No. CP68-203. Pontchartrain further states that the exchange agreement provides for termination by either party on six months written notice. Pontchartrain asserts that by letter dated September 23, 1993, ANR provided written notice to Pontchartrain that it would terminate the service effective March 31, 1994. Pontchartrain further states that, beginning April 1, 1994, the exchange service will be superseded with a transportation service pursuant to ANR's Rate Schedule FTS-1. Specifically, Havre intends to purchase from Northern pipeline, compression, and appurtenant facilities located in Blaine, Chouteau, and Hill Counties, Montana. Havre states that a significant amount of the facilities to be acquired are low-pressure, small diameter lines used to gather Montana gas production. In addition, Havre states

that the facilities to be acquired include three compressor stations and large diameter, higher pressure pipelines, whose primary function is to transport Montana gas after it is gathered. Havre states that it will be a gatherer and transporter of natural gas, and will operate the facilities to be acquired from Northern to serve intrastate shippers in Montana and those shippers that request interstate transportation services pursuant to NGPA Section 311.

National proposes to construct and operate a new residential sales tap in Jefferson County, Pennsylvania. National states that the total estimated deliveries for the sales tap will be 150 Mcf annually.

National estimates the cost of constructing the sales tap to be \$1,500, which will be reimbursed by Distribution.

the National Register of Historic Places at Project Nos. 2404 and 2419.

The programmatic agreement, upon approval by the Commission, the SHPO, and the Council, would satisfy the Commission's Section 106 responsibilities for all individual undertakings carried out in accordance with the agreement until the agreement expires or is terminated (36 CFR 800.13[e]). Thunder Bay Power Company, as a prospective licensee for the projects, is being asked to participate in the consultation and is being invited to sign as a concurring party to the programmatic agreement.

For purposes of commenting on the programmatic agreement we propose to restrict the service list of Project Nos. 2404 and 2419 as follows:

Advisory Council on Historic Preservation, Eastern Office of Project Review, The Old Pose Office Building, Suite 809, 1100 Pennsylvania Avenue, NW., Washington, DC 20004.

Any person on the official service list for the above-captioned proceedings may request inclusion on the restricted service list, or may request that a restricted service list not be established, by filing a motion to that effect within 15 days of this notice date. An original and 8 copies of any such motion must be filed with the Secretary of Commission (825 N. Capitol St., NE, Washington, D.C. 20426) and must be served on each person whose name appears on the official service list. If no such motions are filed, the restricted service list will be effective at the end of the 15 day period. Otherwise, a further notice will be issued ruling on the motion.
